Re: Permitting Little Mountain Mine  
ACT/057/002  
Weber County, Utah

Dear Ms. Linner:

Per our telephone conversation of April 18, 1983 I have prepared an addendum covering the soil sampling and revegetation of our borrow pit areas to become part of our reclamation plan. (Attached)

As indicated before, we have already sent soil samples to Utah State University for analysis in preparation for doing test plot re-seeding this fall.

Sincerely,

  
Max J. Reynolds

MJR:dh

Attachment

RECEIVED  
APR 21 1983

DIVISION OF  
OIL GAS & MINING

Great Salt Lake Minerals & Chemicals Corporation hereby agrees to the following stipulation, hereafter to become part of the reclamation plan previously submitted.

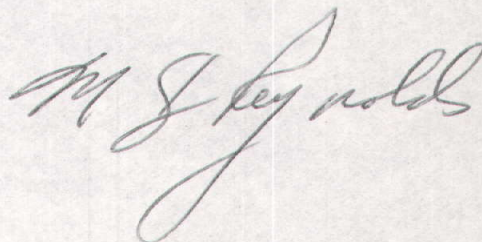

Soil Sampling

Great Salt Lake Minerals & Chemicals Corporation will adopt the recommendations made in the Division's February 9, 1983 letter for soil sampling, with additional analysis done for nitrogen, phosphorus and potassium. Any proposed changes in the sampling scheme will be submitted to the Division.

Revegetation Plan

The recommended seed mix, revegetation techniques and monitoring plan as outlined in the February 9 letter, will become GSL's reclamation plan unless additional information and/or test re-seeding plots indicate improved results could be obtained.

Dated this 19 April 1983
